Use our CHRISTMAS letters to make a free banner for your decorating. It's easy!

First, go to our CHRISTMAS (or GOLD CHRISTMAS) web page at art-type.com and scroll to the bottom Shop By Letter/Design section. Click on a letter that you need to spell your garland. A web page will open in another tab or window of your web browser where you can right-click on the large Christmas type image or take a screenshot of it and save the image to your computer. Once you have the image, print it out on your home computer at whatever

size you choose. Repeat these steps for each letter that you want to use.

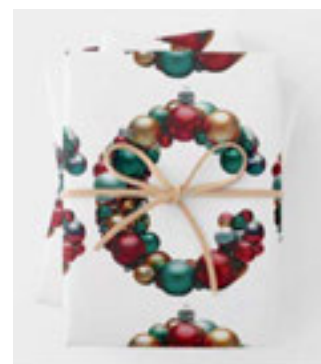

Once you have all of your letters, you will need a holepunch and a long piece of yarn or something pretty like rickrack to string your letters on. Punch two holes in the top of each letter paper, then weave your string in and out of each letter.

When they are complete, hang your garland using tape or small nails on a wall, over a billboard or doorway. Enjoy!

Christmas: *Hostess Gifts*

In our opinion, the best hostess gift reflects the recipient, is useful and will be brought to the party year after year. In a word, cherished. We feel that way about our aprons and all the happy memories they hold of celebrations and sharing. Start your own traditions this year.
